Disclaimers:

This resource is intended to aid physicians and qualified office staff to identify diagnosis codes (ICD-10 codes) that support medical necessity.

The ICD-10 codes indicated in this guide are based on AMA guidelines and are common codes currently listed as medically supportive, and therefore covered, under Medicare's limited coverage policy.

Services must meet specific medical necessity requirements contained in any applicable statutes, regulations and manuals, as well as criteria defined by National Coverage Determinations (NCDs) and Local Coverage Determinations (LCDs). For every service billed, you must indicate the specific sign, symptom, or patient complaint that makes the service reasonable and necessary.

The accuracy and relevance of this information should be verified by reference to the current version of the Coding Manual of the American Medical Association (AMA) and by visiting the Centers for Medicare and Medicaid Services (CMS) Web site at www.cms.hhs.gov/home/medicare.asp. This information is not intended to suggest reimbursement or provide direction for coding and was obtained online at www.cms.hhs.gov/home/medicare.asp. Codes listed are effective as of April 23, 2020. To ensure the accurate and appropriate use of the information, it is recommended that the primary sources (i.e. CMS, MAC publications, notices, and advice) should be consulted periodically since information is often affected by ongoing developments. All CPT codes provided above are based on AMA guidelines and are for informational purposes only. CPT coding is the sole responsibility of the billing party. The ICD-10 codes indicated in this guide are based on AMA guidelines and are common codes currently listed as medically supportive, and therefore covered, under Medicare's limited coverage policy.

Services must meet specific medical necessity requirements contained in any applicable statutes, regulations and manuals, as well as criteria defined by National Coverage Determinations (NCDs) and Local Coverage Determinations (LCDs). For every service billed, you must indicate the specific sign, symptom, or patient complaint that makes the service reasonable and necessary.

The accuracy and relevance of this information should be verified by reference to the current version of the Coding Manual of the American Medical Association (AMA) and by visiting the Centers for Medicare and Medicaid Services (CMS) Web site at www.cms.hhs.gov/home/medicare.asp. This information is not intended to suggest reimbursement or provide direction for coding and was obtained online at www.cms.hhs.gov/home/medicare.asp. Codes listed are effective as of April 23, 2020. To ensure the accurate and appropriate use of the information, it is recommended that the primary sources (i.e. CMS, MAC publications, notices, and advice) should be consulted periodically since information is often affected by ongoing developments.

All CPT codes provided above are based on AMA guidelines and are for informational purposes only. CPT coding is the sole responsibility of the billing party. Please direct any questions regarding coding to the payer being billed.
